

Fairburn Elementary Volunteer Program

Before starting your online volunteer application, you must have a valid email account

Any person interested in participating in a school's volunteer program, including continuing volunteers, LAUSD employees, community members and interns, must complete the **online** volunteer process and application at <http://volunteerapp.lausd.net>.

Once the online volunteer application is completed, it should then be submitted (by you) electronically. Both the **application** (please print once you complete the online process) and **Volunteer Commitment Form** (see attached) should be signed and delivered to the school.

No person may provide volunteer service until all necessary clearances are verified by the school principal, the volunteer has signed a copy of the online application and the Volunteer Commitment Form is returned to the school. A volunteer badge is issued by the Parent Community Student Services Branch. The badges are sent to your home address.

Once a person receives the volunteer badge, the volunteer is approved to volunteer at the school (after first contacting your child(ren) teacher to see when your services are needed in their classroom.
